

BASIS WEIGHT CONTROL VALVE

High Accuracy Knife Valves, for Basis Weight Control
Control Cabinet ready to connect with QCS System

KNIFE VALVES

CONTROL CABINET

Technical Data

Accuracy:	0.1 %
Resolution:	4000 steps
Max. Temperature:	80° C
Electric Protection:	Thermoswitch
Mechanical Limits:	Limitswitches
Motor Supply:	380 VAC
Operator Panel Supply:	220 VAC
Sizes:	DN 80, DN 100, DN 125, DN 150, DN 200

Features

- No "Backlash" Actuator
- Remote Control Cabinet
- Position Indicator on Digital Display
- Open / Close Lamps
- Wheel Manual Handling
- Analog Signal for Valve Position
- System Ready to integrate into a QCS
